- owned by all
- fully implemented

- subject to annual review or when changes in policy or procedures occur

PERSON RESPONSIBLE FOR POLICY:	SHARON WOMERSLEY
---------------------------------------	------------------

All members of the lowdown Management Committee are to hold this responsibility.

1. Aim

The aim of this policy is to set out clearly for staff, students, volunteers, Trustees, schools, partner agencies, and any others with whom the lowdown and its subsidiaries may interact, how confidential information will be managed and shared by the lowdown. This policy should be read in conjunction with the Data Protection Policy.

2. Introduction

The lowdown's confidentiality and information sharing policy is set out below. All staff, students, volunteers (including Trustees), and any other individuals working under instruction from the lowdown, are expected to abide by this policy.

The lowdown is committed to maintaining high standards of confidentiality in all aspects of its work. This includes records and information pertaining to staff, students, volunteers, schools, children, young people, and their families.

The lowdown also recognises the importance of information sharing as being essential to enable early intervention and preventative work, for safeguarding and promoting welfare and for wider public protection. Information sharing is a vital element in improving outcomes for all. However, in some situations, practitioners feel constrained from sharing information by uncertainty about when they can do so lawfully. This is especially in early intervention and preventative work where

information sharing decisions may be less clear than in safeguarding or child protection situations.

It is important that people remain confident that their personal information is kept safe and secure and that practitioners maintain the privacy rights of the individual whilst sharing information to deliver better services.

It is important that practitioners understand when, why and how they should share information so that they can do so confidently and appropriately as part of their day-to-day practice.

Any breaches of this policy may give rise to disciplinary action in the case of staff and termination of placement in the case of volunteers.

3. Information Relating To Children, Young People and Families

All information about individual children, young people and their families is confidential within the lowdown unless it is deemed appropriate to share with other identified professionals, such as teachers, doctors, social workers etc.

3.1 When deciding whether to share information, follow **Appendix 1 Flowchart of Key Questions relating to information sharing**, considering the following:

- **Remember that the General Data Protection Act is not a barrier to sharing information**
But provides a framework to ensure that personal information about living persons is shared appropriately.
- **Be open and honest**
Be open and honest with the person (and/or their family where appropriate) from the outset about why, what, how and with whom information will, or could be shared, and seek their agreement, unless it is unsafe or inappropriate to do so.
- **Seek advice**
If you are in any doubt ask your manager, the Designated Safeguarding Lead or the Deputy Designated Safeguarding Lead.
- **Share with consent where appropriate**
Share with consent where appropriate and, where possible, respect the wishes of those who do not consent to share confidential information. You may still share information without consent if, in your judgement, that lack of consent can be overridden in the public interest. You will need to base your judgement on the facts of the case.
- **Consider safety and well-being**
Base your information sharing decisions on considerations of the safety and well-being of the person and others who may be affected by their actions.
- **Necessary, proportionate, relevant, accurate, timely and secure**
Ensure that the information you share is necessary for the purpose for which you are sharing it, is shared only with those people who need to have it, is accurate and up to date, is shared in a timely fashion, and is shared securely.
- **Keep a record**
Keep a record of your decision and the reasons for it – whether it is to share

information or not. If you decide to share, then record what you have shared, with whom and for what purpose.

3.2 All individuals have a right to the same level of confidentiality irrespective of gender, race, religion, medical concerns, and special educational needs.

3.3 Photographs of children should not be taken without the express permission of parents/carers (where appropriate). If such permission is given, at no time should the child's name be used with a photograph so that they can be identified.

3.4 All staff, students and volunteers are expected to adhere to the principle that all or anything they are told, see or are given about a child/young person remains confidential within the lowdown and should not be discussed with anyone not directly involved, especially where that issue relates to individual children/young people.

3.5 In cases where there are concerns relating to abuse or neglect of children, the lowdown's Safeguarding Policy will apply.

4. Information about Staff, Students, Volunteers and Trustees

4.1 In all but specific circumstances (e.g., disciplinary procedures), the decision as to who should be given access to their personal/confidential information pertaining to a staff member, student, volunteer, or Trustee, is the staff member, student, volunteer or Trustee themselves.

4.2 Where such consent is sought, it is necessary to tell the member of staff, student, volunteer, or Trustee why there is a need to disclose information and to whom. They should be told of the likely consequences of their agreeing or not agreeing to this. Any consent given should be written, dated and signed specifying exactly what information may be disclosed.

4.3 Once consent has been obtained, it is the responsibility of the person passing on any information to ensure that this is only done on the terms agreed.

4.4 Unless previously authorised, a request for a home address, telephone number or email address will always be referred to the individual before any information is disclosed.

4.5 In some cases there is an automatic right of access to certain areas of information e.g., requests from HMRC. The individual concerned will be notified of any legal requirements whereby the lowdown is obliged to provide such information.

4.6 A member of staff, volunteer or Trustee should never divulge information relating to another staff member, student, volunteer or Trustee's personal circumstances or personal information to anyone without permission of the that person.

5. Files – Staff, Student, Volunteer, Children and Young People

7.11 Breaches of confidentiality by staff, students or volunteers will normally be treated within the remit of the lowdown's disciplinary and grievance procedure. Breaches of confidentiality by volunteers or students will normally be treated by the Shift Manager, Clinical Manager or CEO. Breaches of confidentiality by Trustees will normally be treated by the CEO and Chair of Trustees unless they relate to the Chair in which case it will be the another nominated Trustee. 9.2 The lowdown will give all partnership agencies a copy of the confidentiality procedure and will explain the requirements it places on the partnership organisations.

9.3 It will be agreed at the outset which staff in the partner organisation will have access to information and in what circumstances.

9.4 Any agreements with other organisations will state that breaches of confidentiality by either party will be treated as a breach of the agreement.

10. Training

Training on the confidentiality policy and its implications should be a standard part of induction procedures for staff, students, volunteers, and Trustees.
